Off-Site Motor Vehicle Dealer's License Temporary Supplemental Lot

Idaho Division of Motor Vehicles

Idaho Code 49-121

(1) "Temporary supplemental lot" means a location other than the principal place of business, or supplemental lot within the same or adjacent county as the principal place of business, where a licensed dealer may secure a license to conduct the business and is licensed for a period of time not to exceed ten (10) days for a specific purpose such as auto shows, auctions, shopping center promotions, tent sales, etc. Temporary supplemental lots shall meet all local zoning and building codes for the type of business being conducted. The requirements for a principal place of business shall not be applicable to temporary supplemental lot locations. The adjacent county restriction shall not apply if the dealer holds the franchise for the products to be displayed or sold and has approval from a manufacturer for the location where the proposed temporary supplemental lot license will be issued by the department. Non-franchised dealers shall be permitted to temporarily display or sell their products within a one hundred seventy-five (175) mile radius of their principal place of business, upon approval by the department.
